ALL BIOECONOMY TOPICS

Biocontrol & biostimulants - Organic fertilisation - Carbon farming - Byproducts valorisation
Food & Feed – Bio-based Chemistry & Industrial Biotechnology – Bio-based materials
Bioenergies – Processes & Technologies

THEY TRUST US

15 years of experience

“ Lesaffre called on B4C Competitive Intelligence Department as part of a market study. They proposed a well-constructed work plan, which was adapted according to our needs and the responses of their network. The study was carried out in time thanks to a rigorous and efficient team. In the end, we obtained the information we had hoped for and are very satisfied with the study. ”

“ B4C has been helping us make our technical and strategic choices for several years. We were provided by their Competitive Intelligence department with high quality deliverables and also contacts with potential partners. We value their professionalism, dedication, flexibility and responsiveness, and also the power of their network. ”
